

Drum Circle

Objects needed: A collection of bowls, containers, spoons, and whisks. Consider using metal, wood, and plastic.

Place the objects in a circle for your child to explore. Allow freedom of movement and observe how they create sound.

What sounds will your child make? What objects do they show a preference toward? Are there other objects you can add?

Extension ideas:

- Sounds change as we modify our motions: loud (*forte*), quiet (*piano*), fast (*presto*), and slow (*largo*)
- Play along with different styles of music.
- Add a collection of loose parts and containers with lids to make a variety of shakers.
